

Dans cet espace trop vaste il manque de murs pour presser sur l'envie.

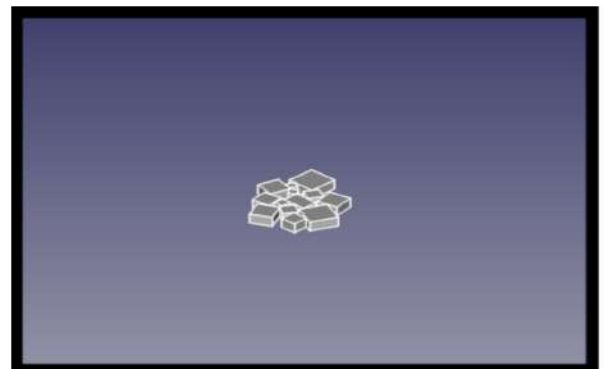

Les fruits de la pensée enflent et pourrissent sans faire de jus.

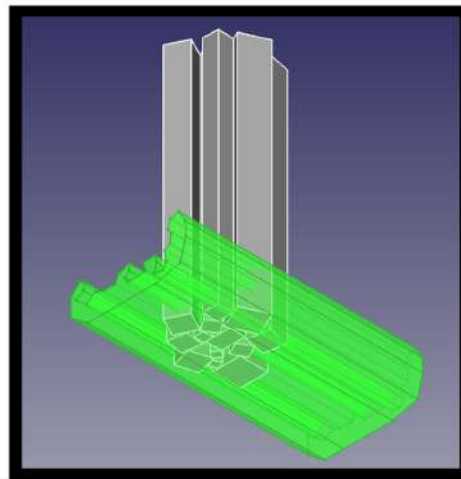

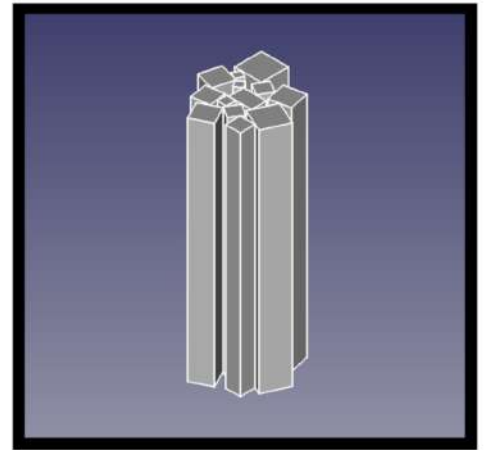

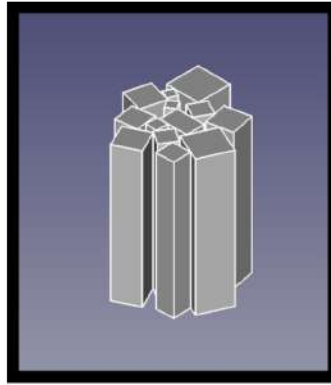

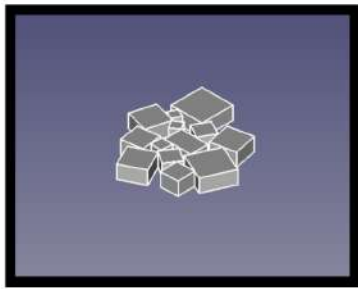

Ils n'arrivent
pas à se
presser eux-
mêmes.

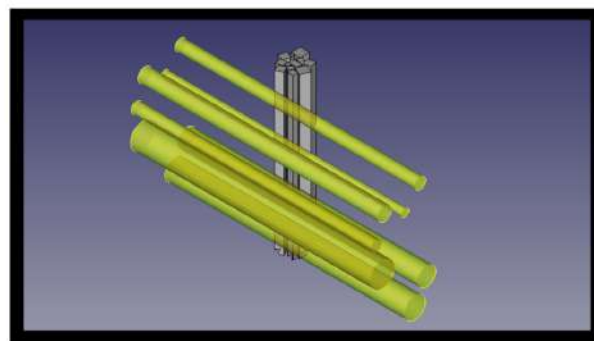

Ils cherchent une main.

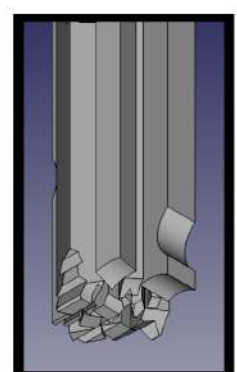

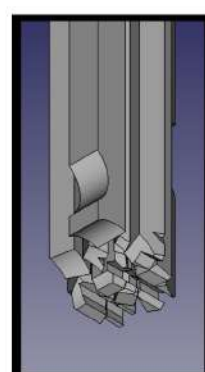

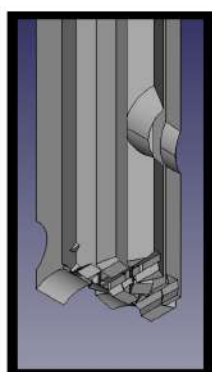

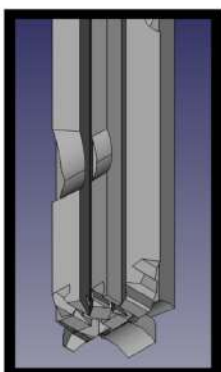

Mais il n'y a plus rien

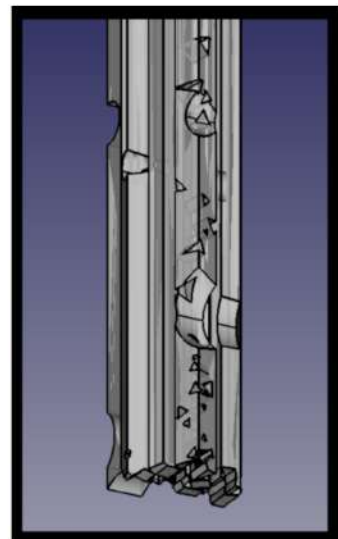

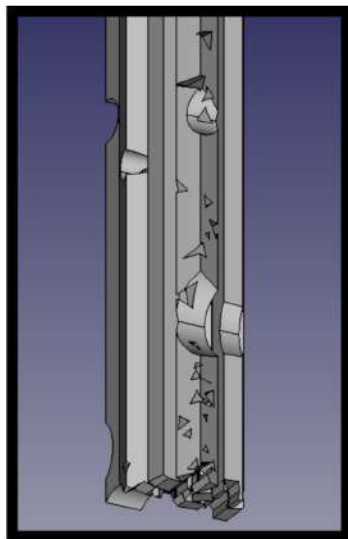

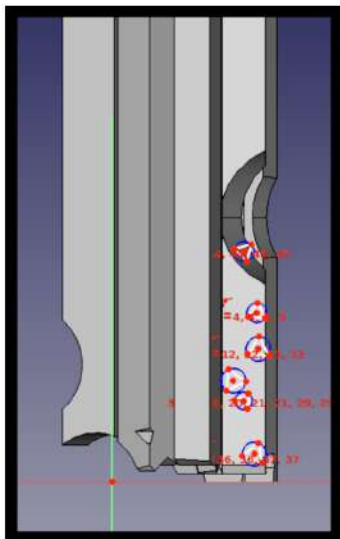

Que la dégradation de leur environnement.

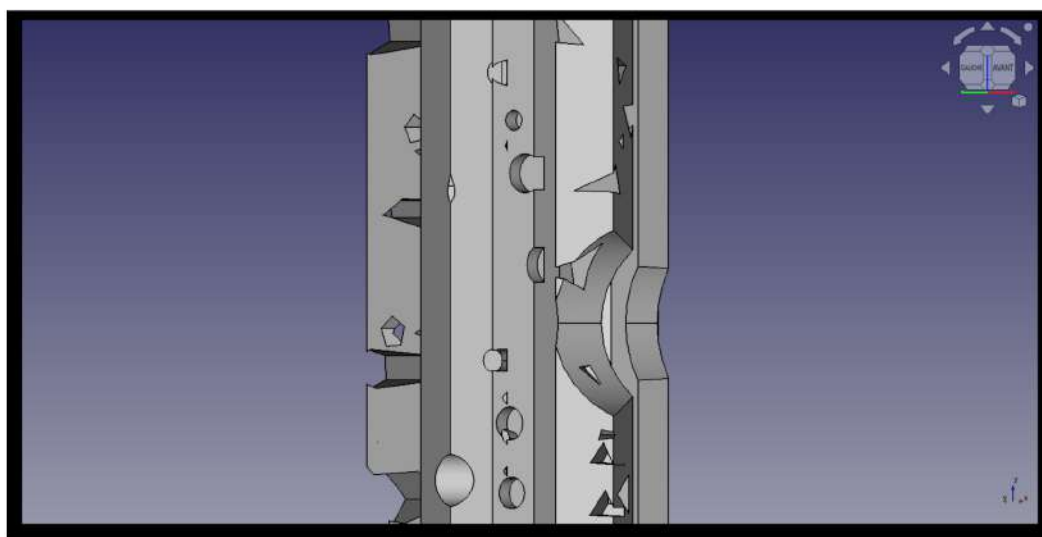

l'entropie, peut-être.

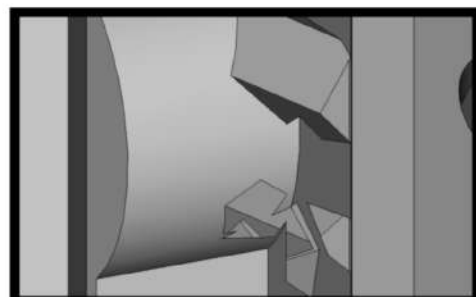

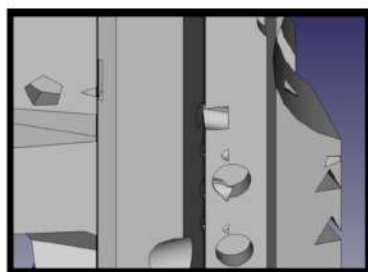

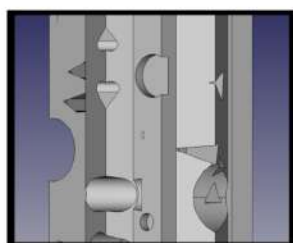

Et ce qui passera à travers leur peau.

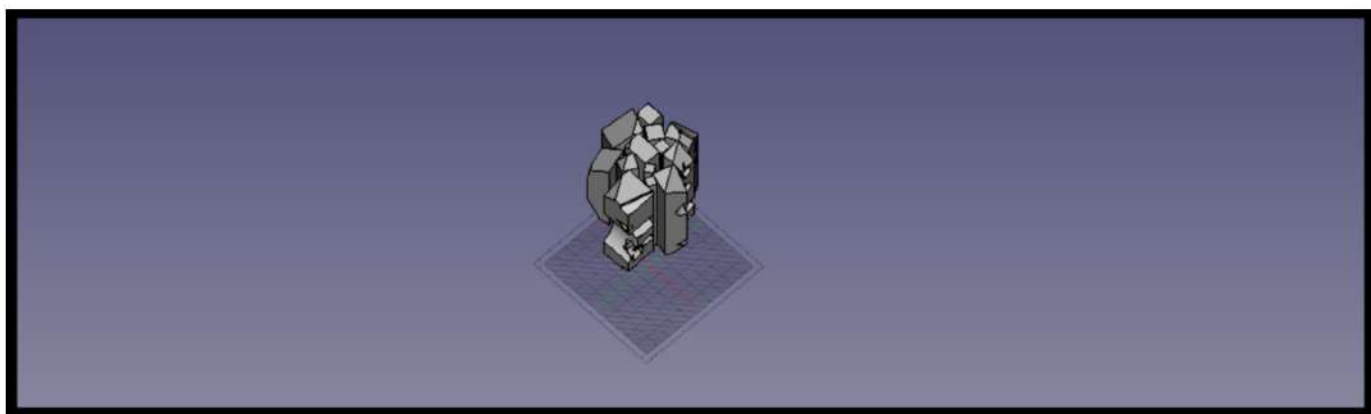

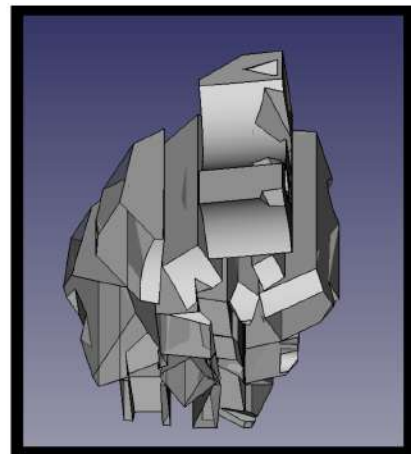

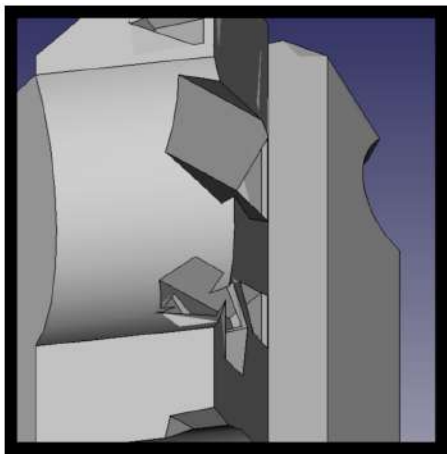

Ils sont uniques.

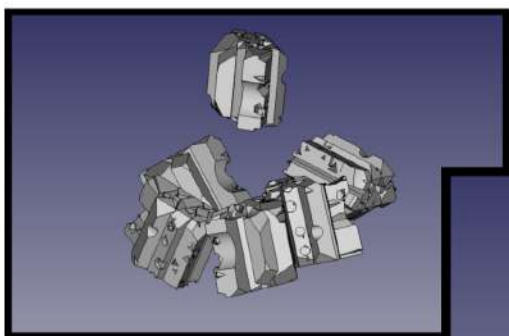

Fiers

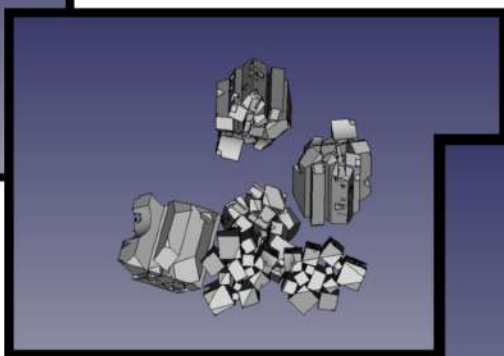

et troubles.

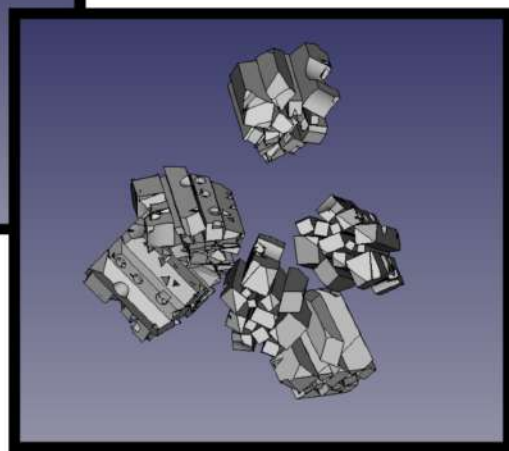

Pensent être devenus mains.

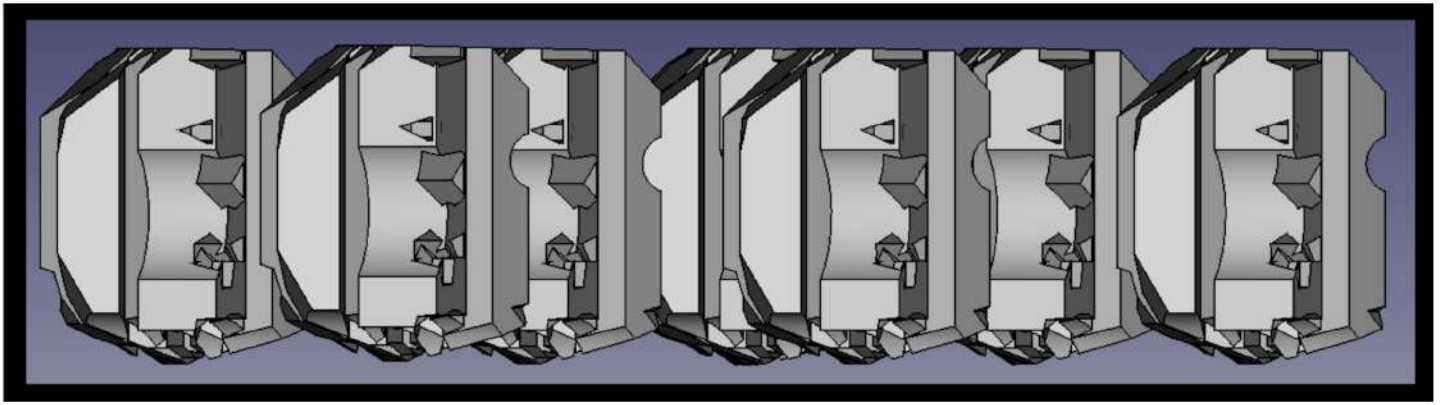

Presseraient,

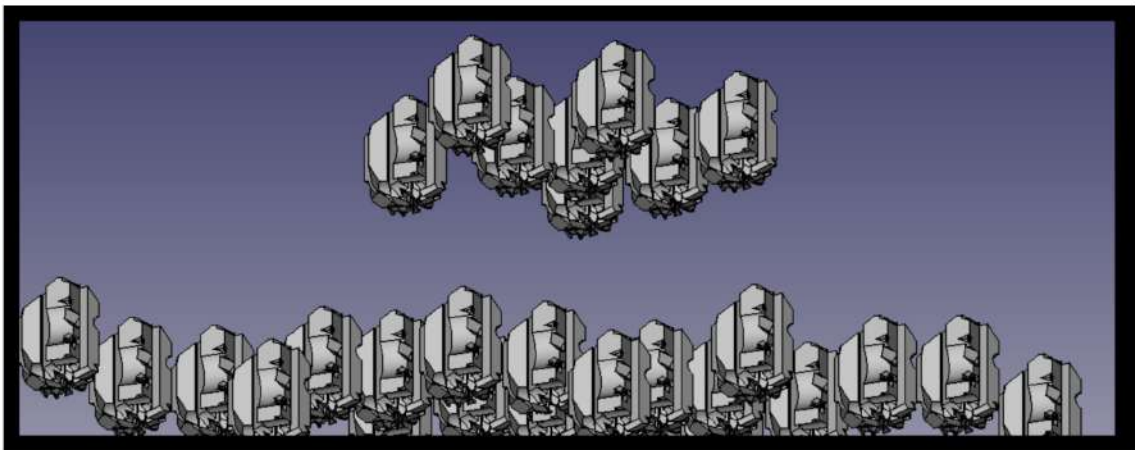

pourquoi pas,

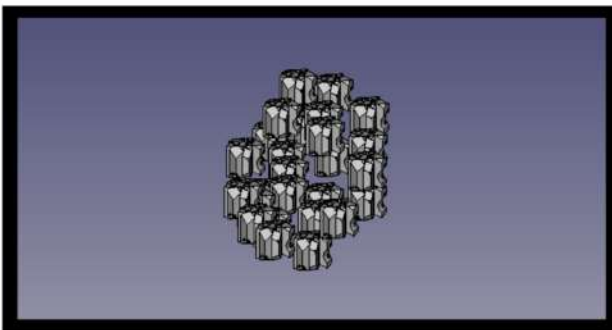

Les autres.

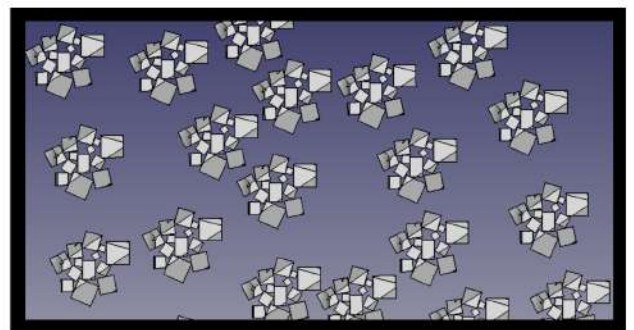

Autres uniques

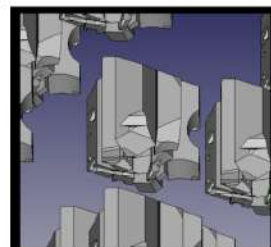

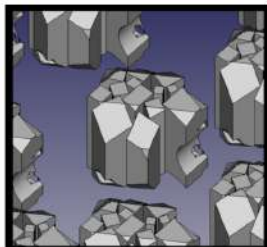

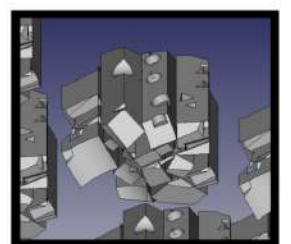

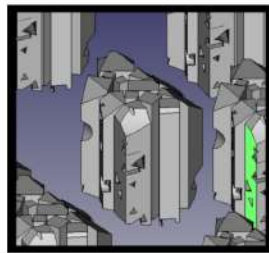

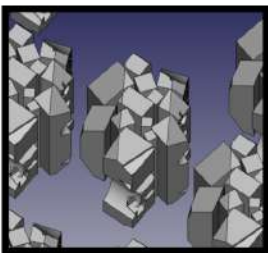

Revant d'être les quelques-uns.

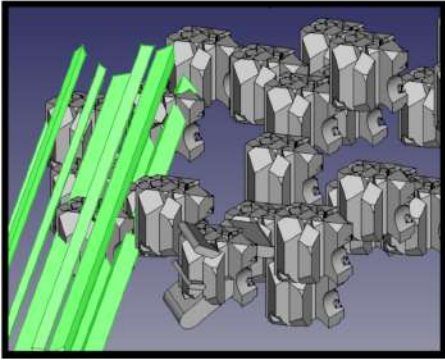

Ou tout.

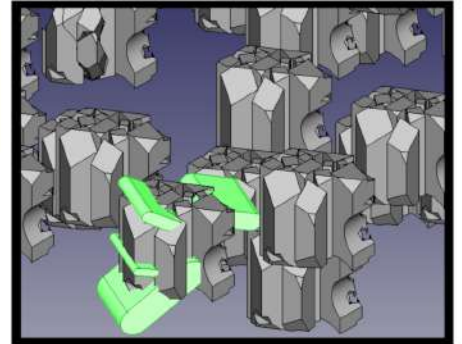

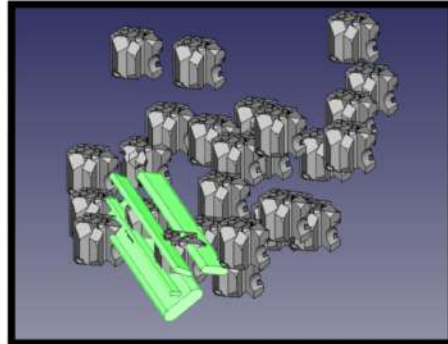

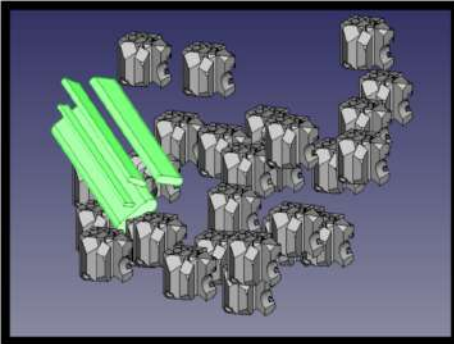

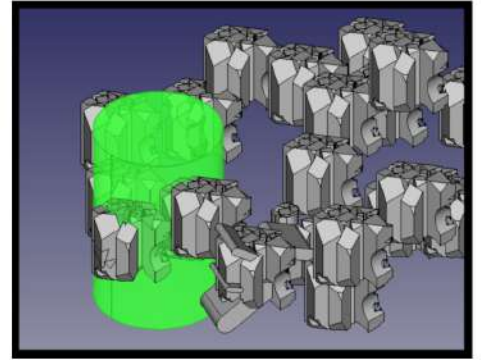

Mais pas les mêmes.

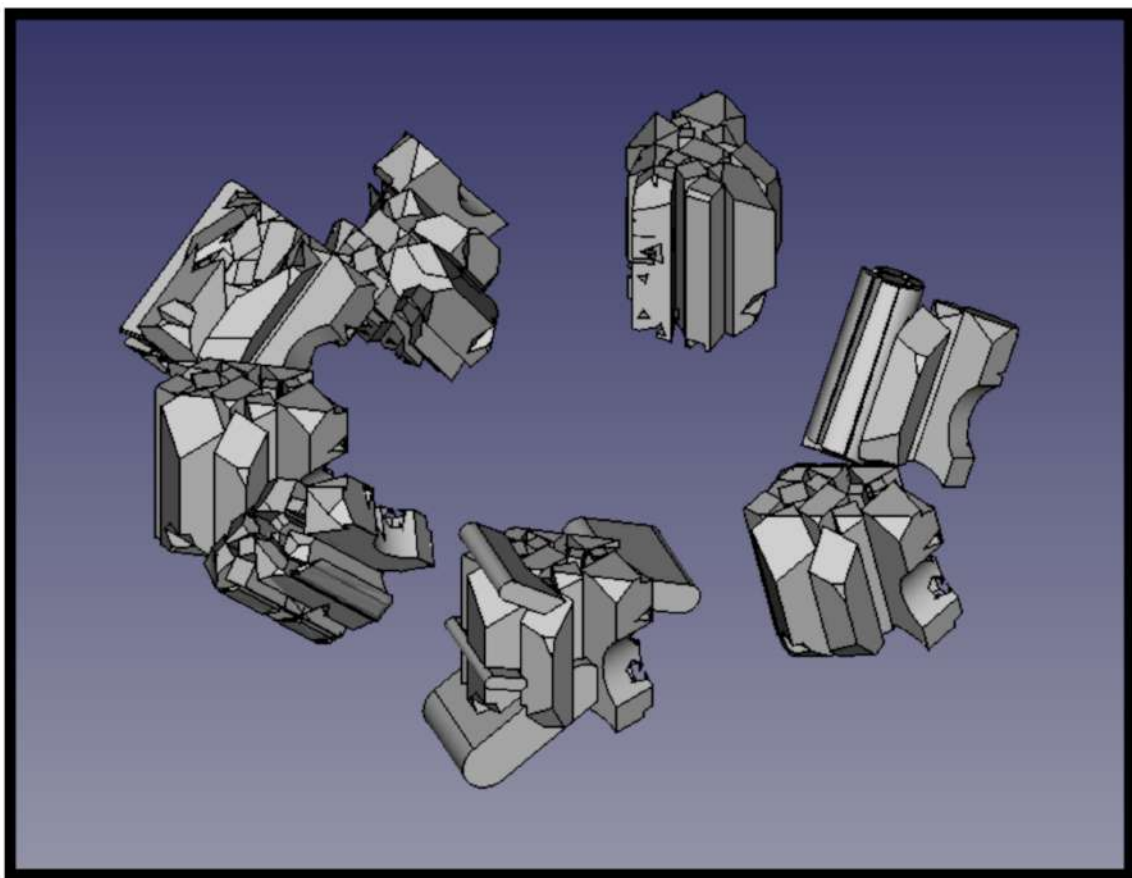

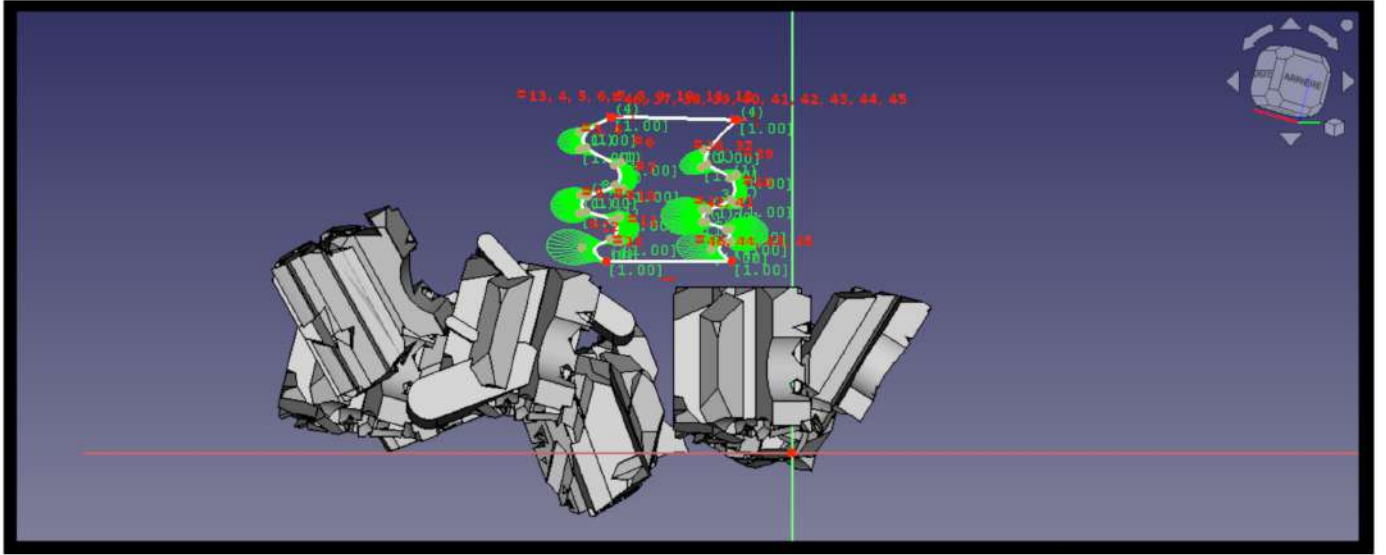

Leurs expériences
particulières

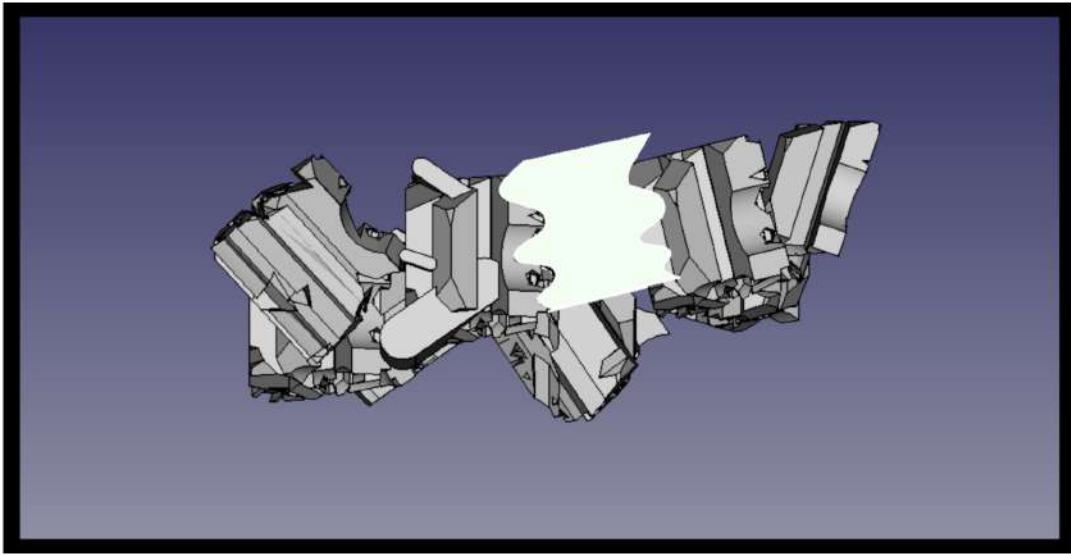

Justifie leurs existences

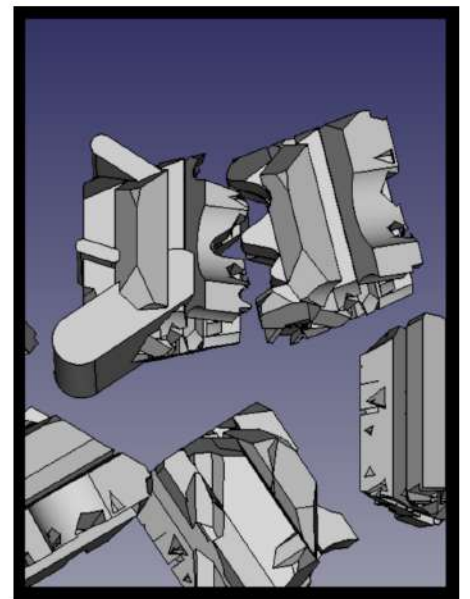

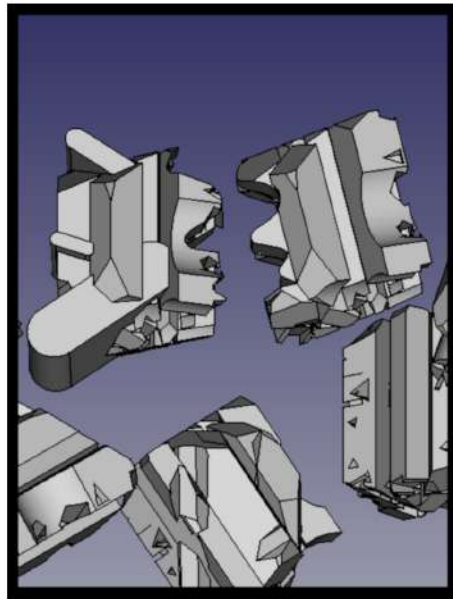

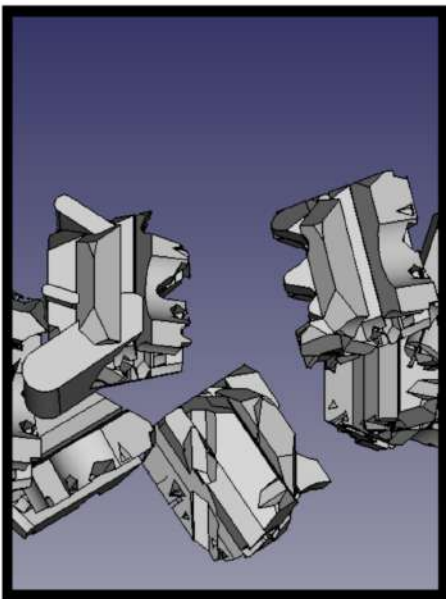

Et les isole.

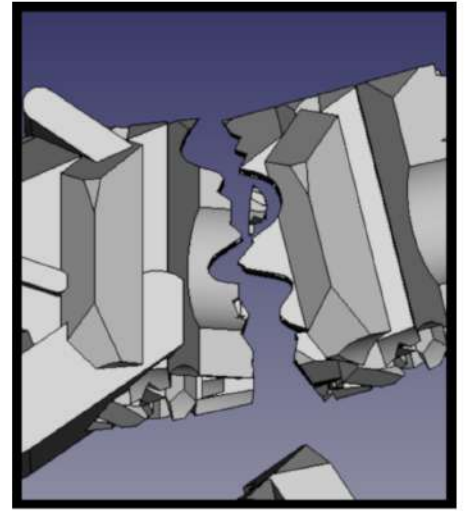

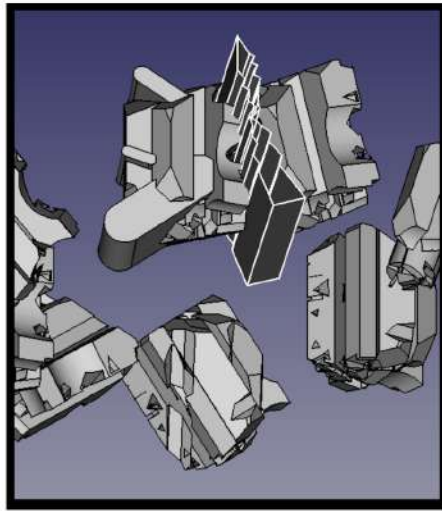

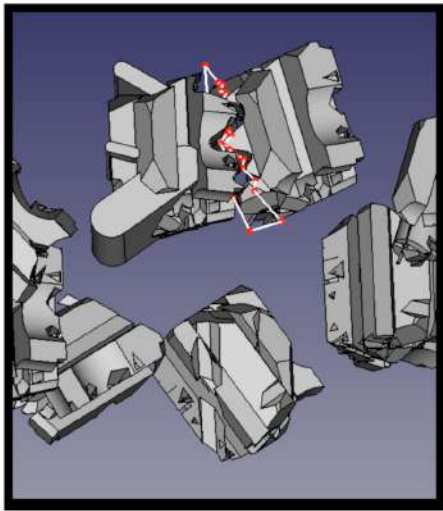

Leurs expériences communes

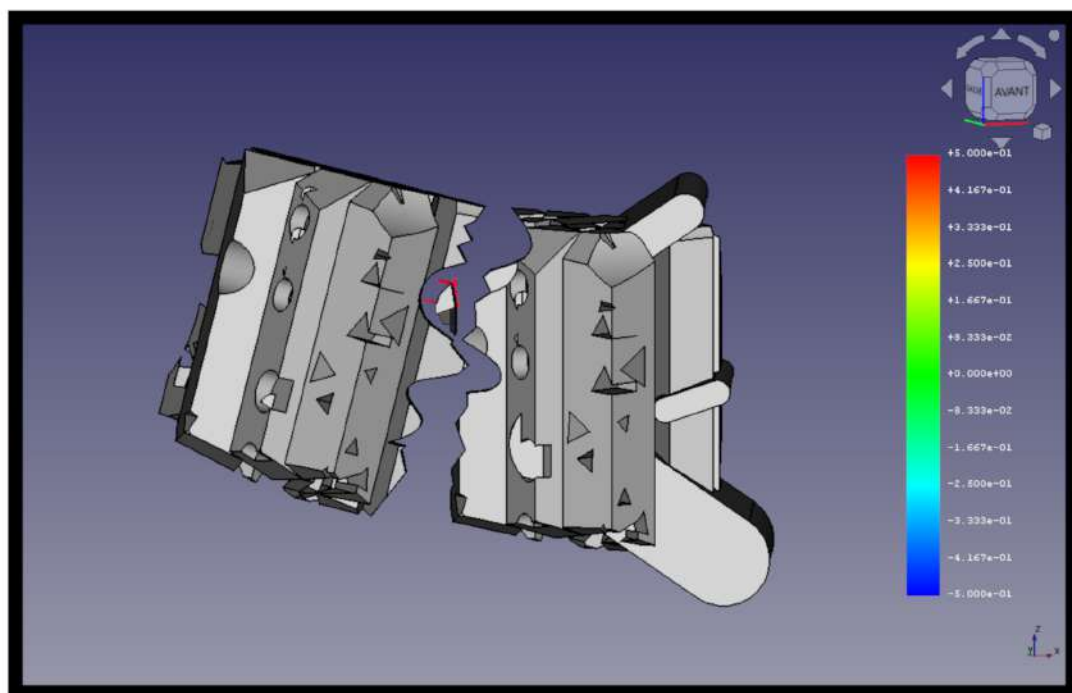

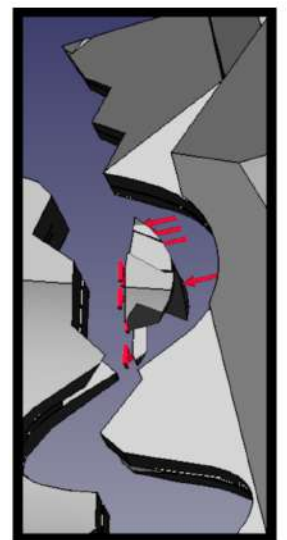

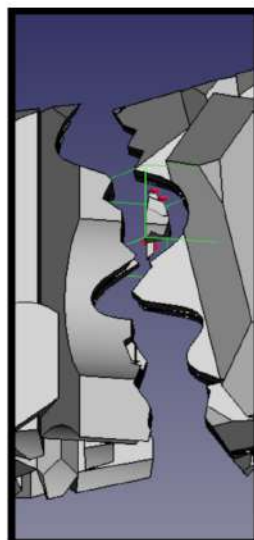

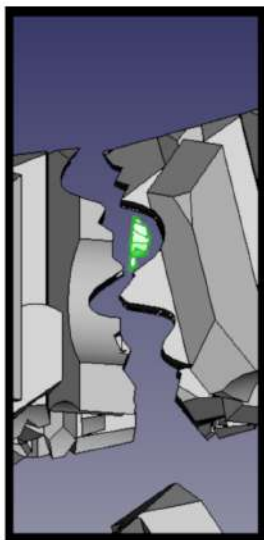

Les lient

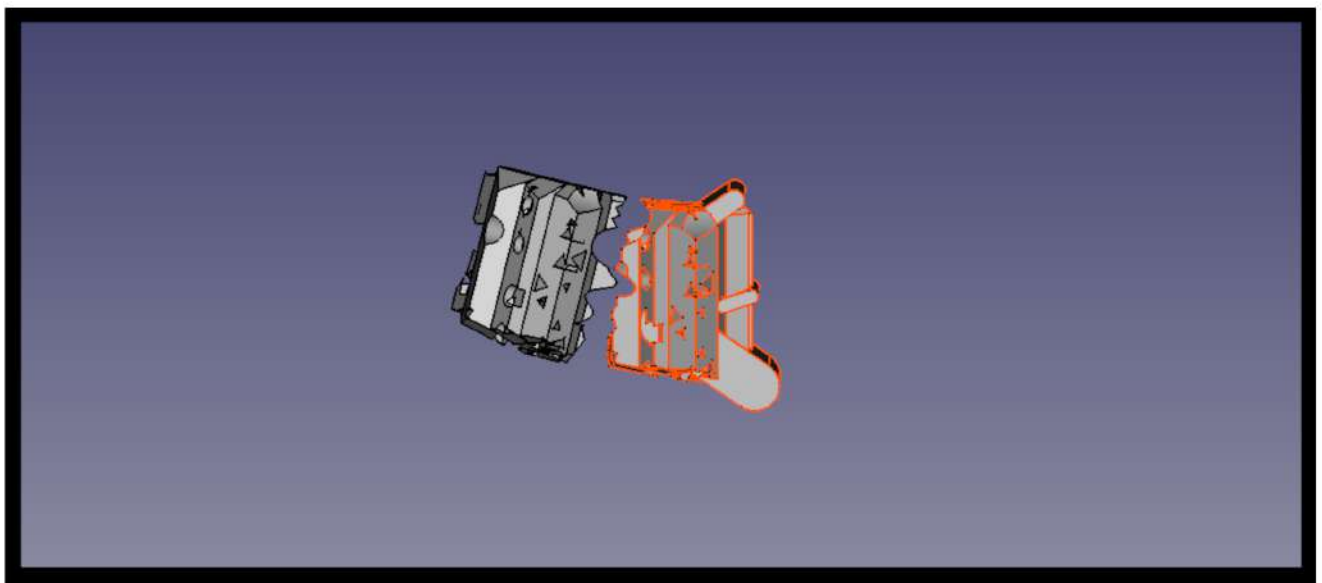

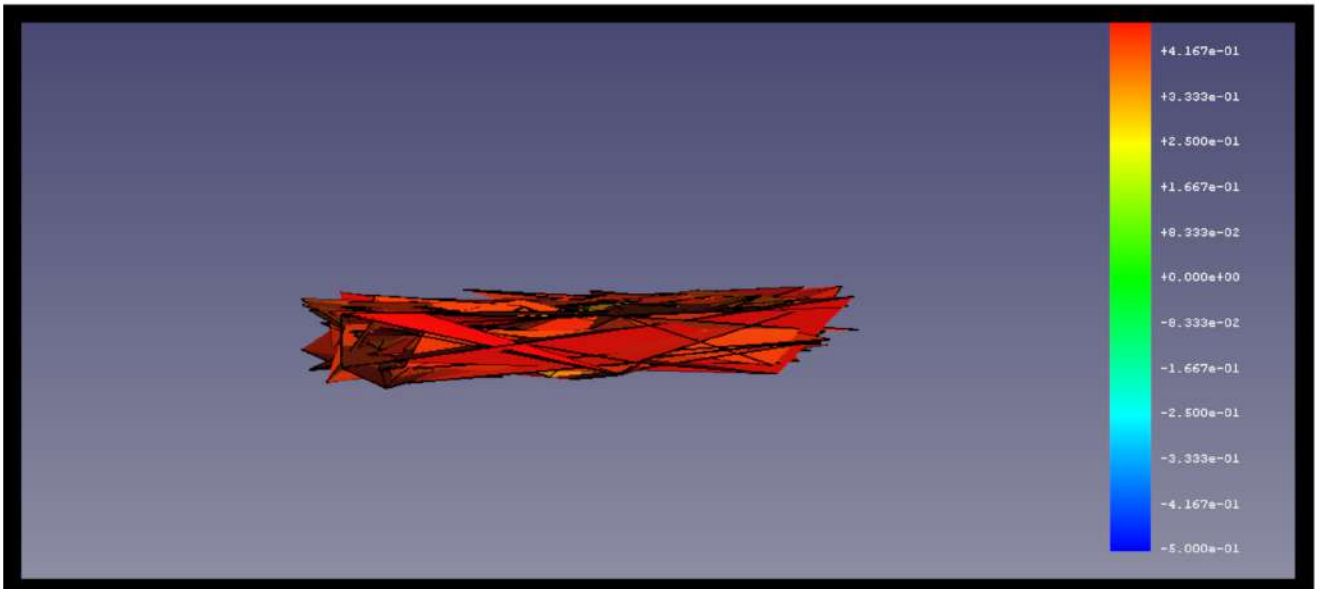

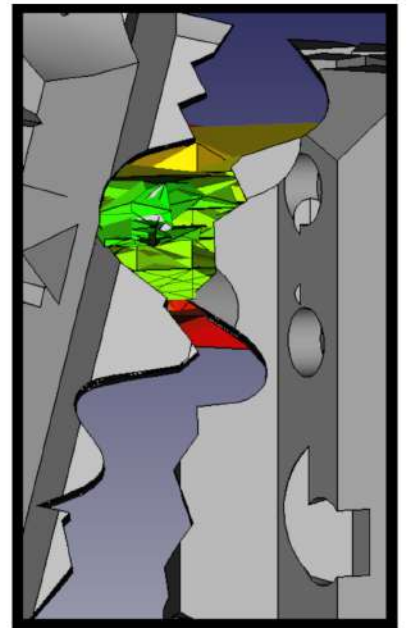

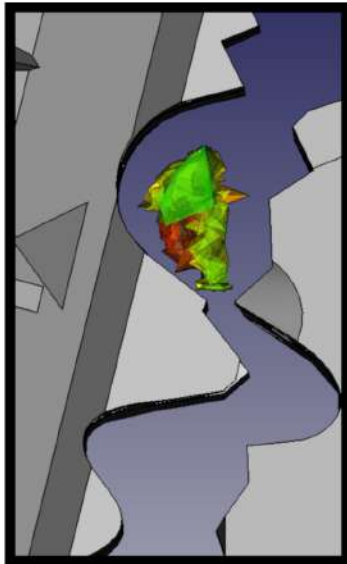

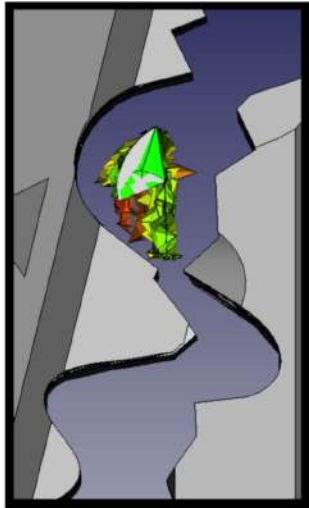

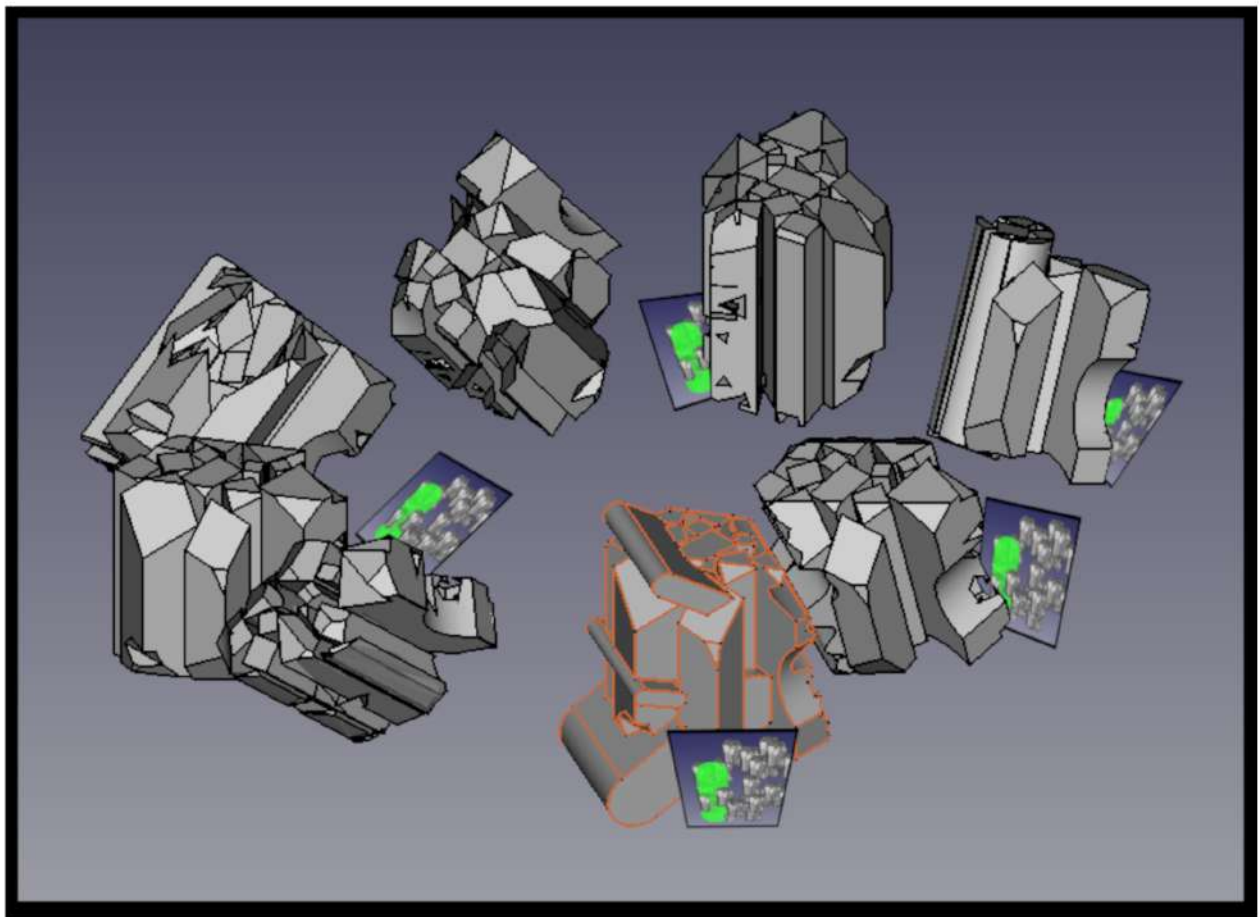

Pour le meilleur

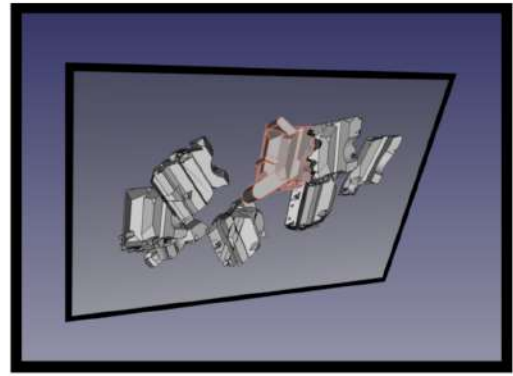

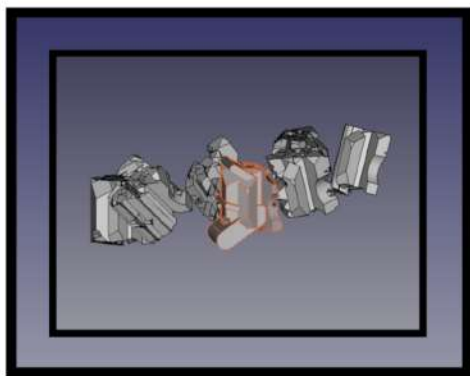

Ou le pire

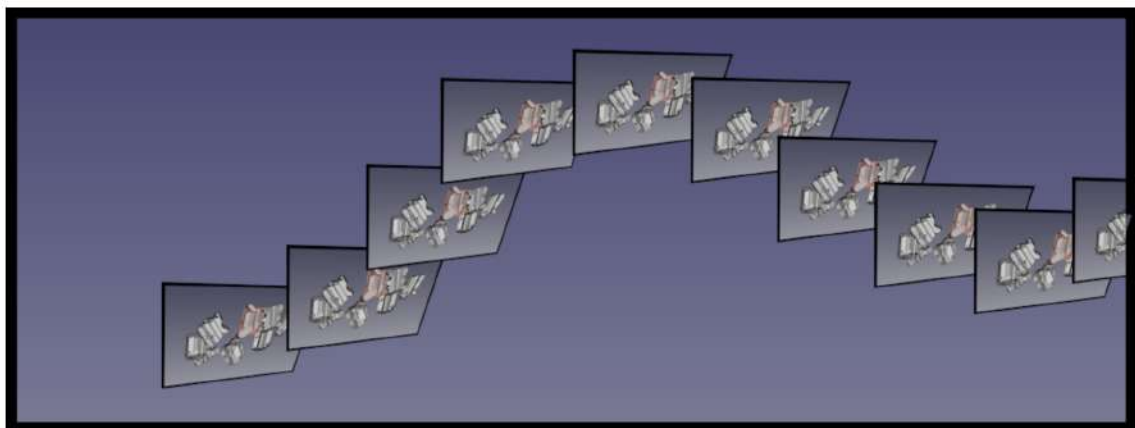

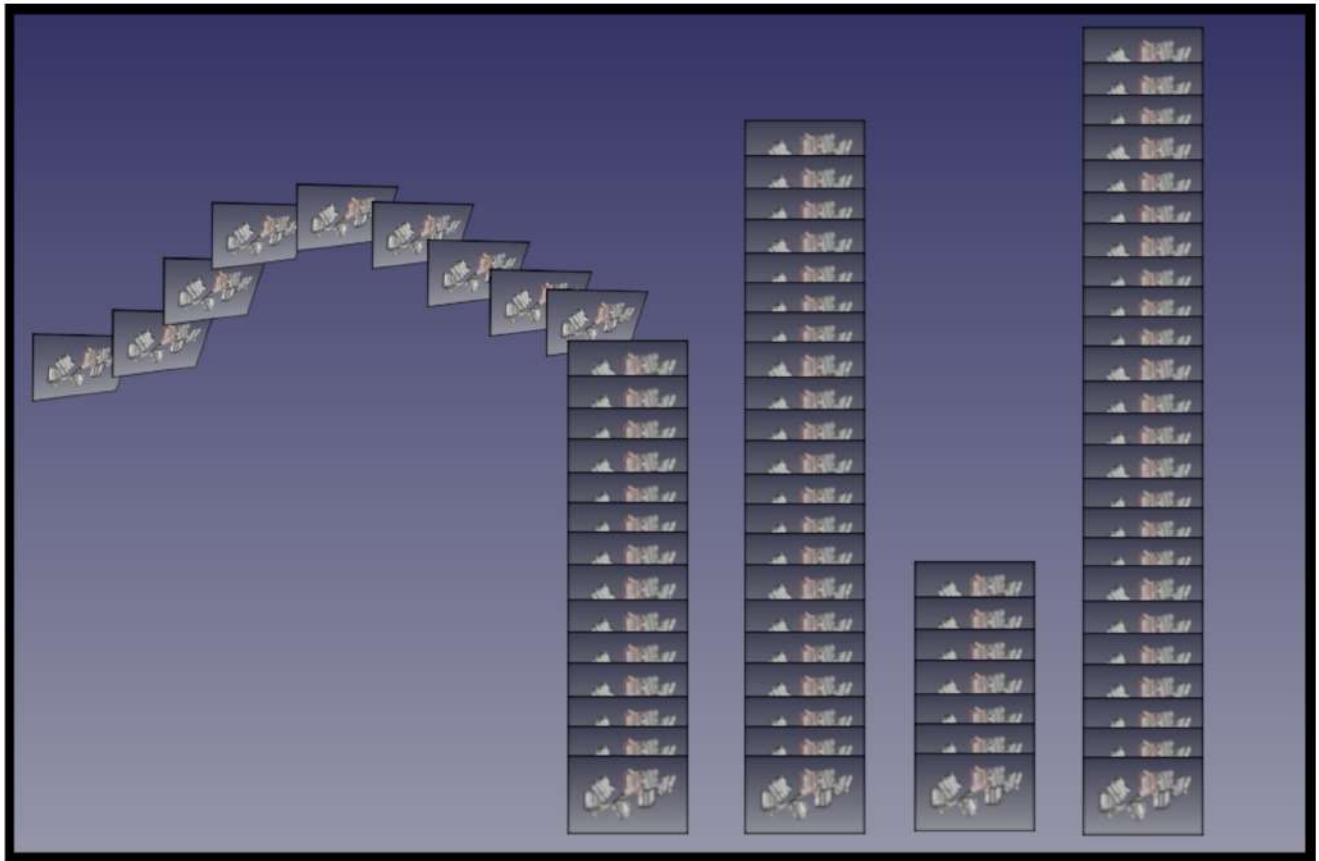

Mais pire encore est leur adhésion a ce qui n'est ni individuel, ni commun.

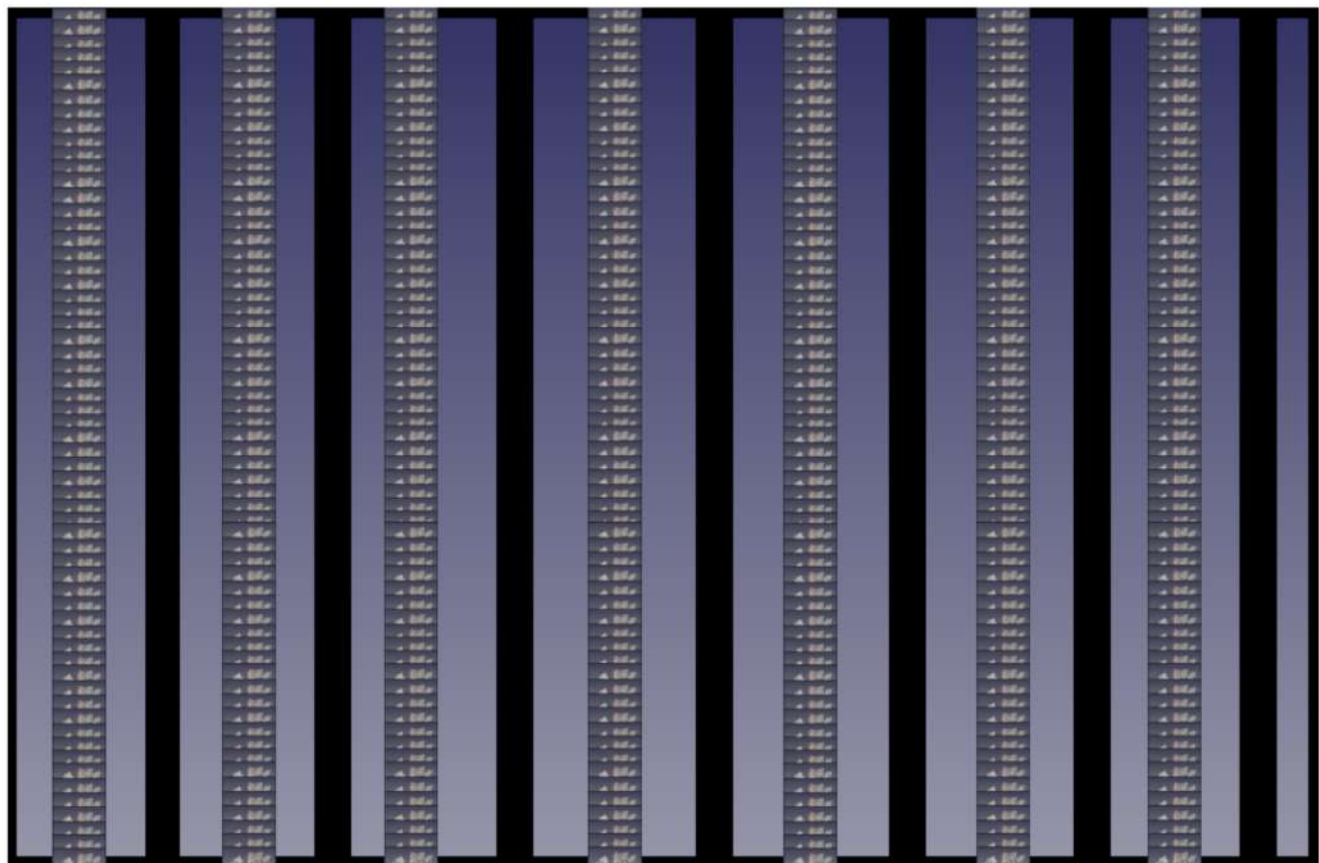

Et paralyse,

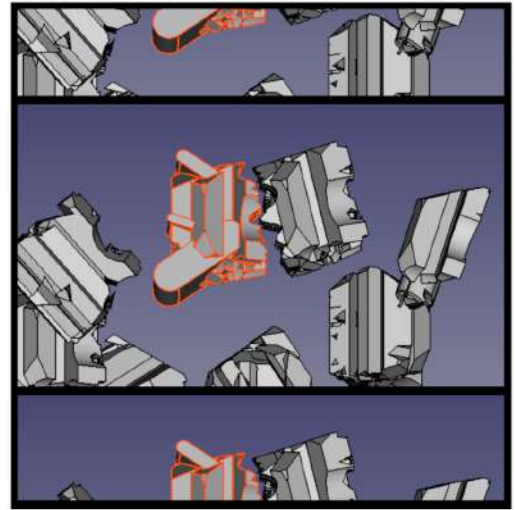

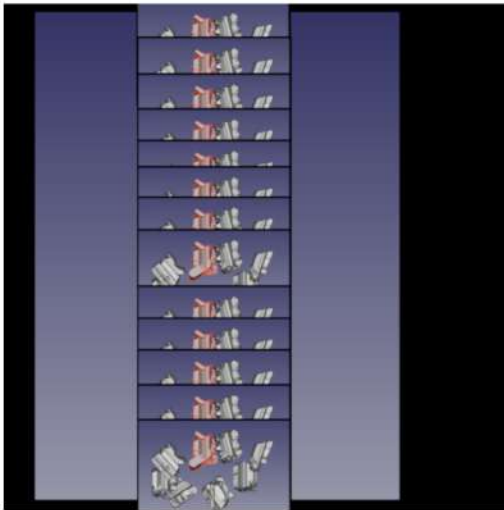

attire,

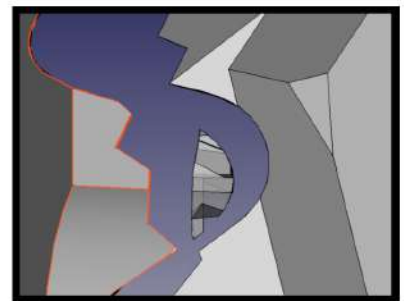

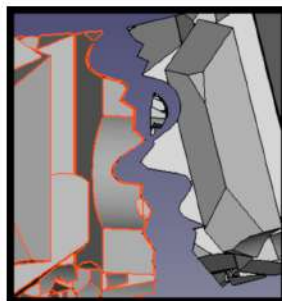

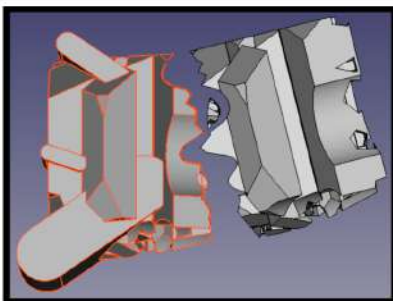

Vers un autre programme

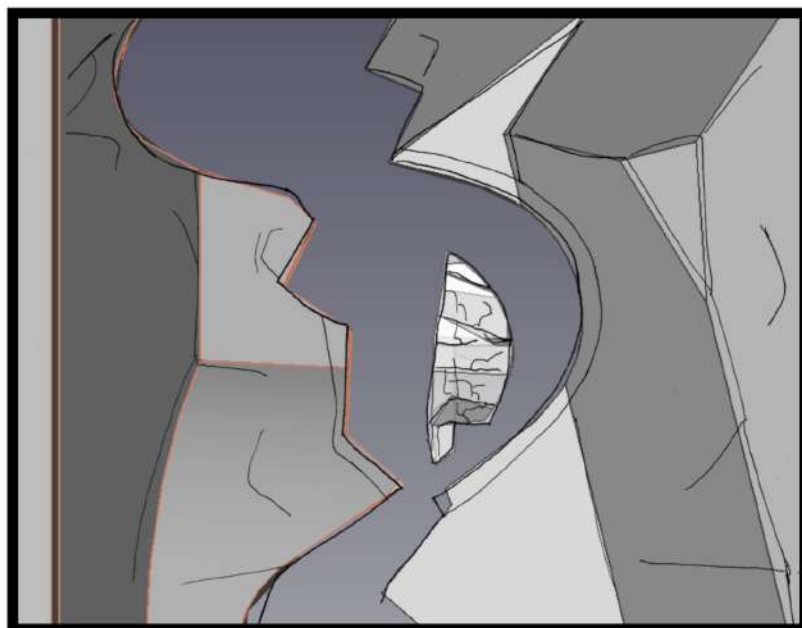

Ils le devinent.

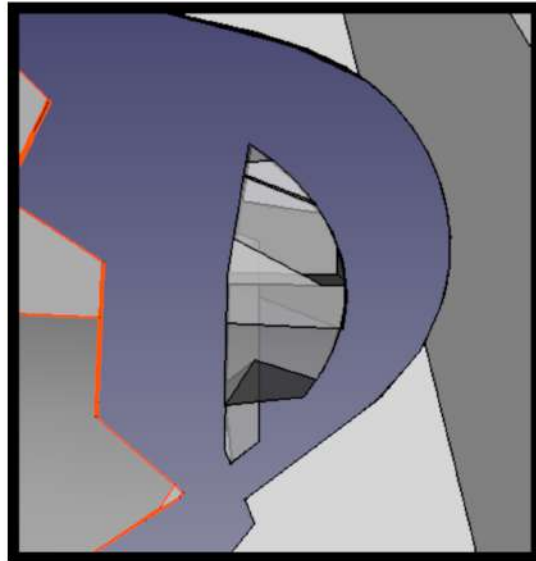

Mais préfèrent cela,

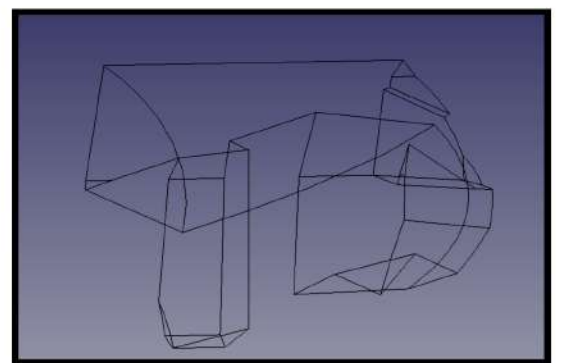

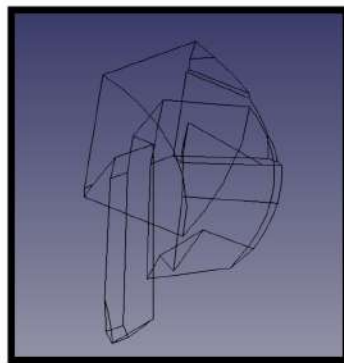

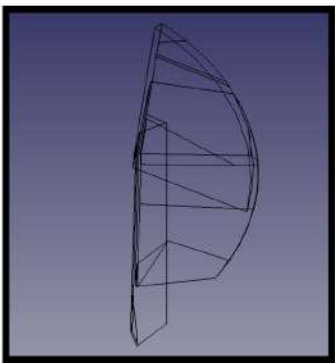

à la parole.

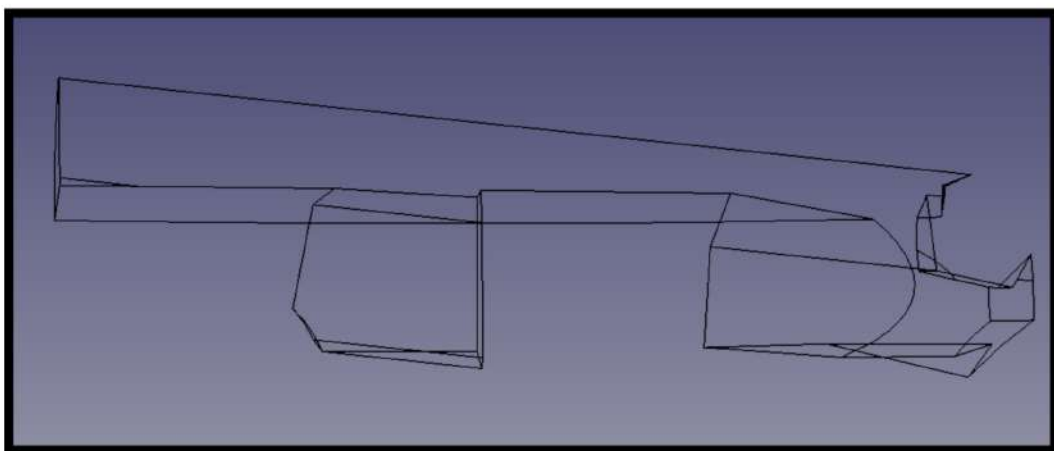

Chose incontrôlable.

Dont les irréductibles différences

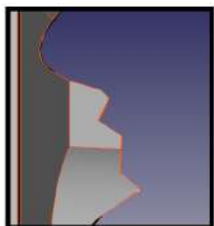

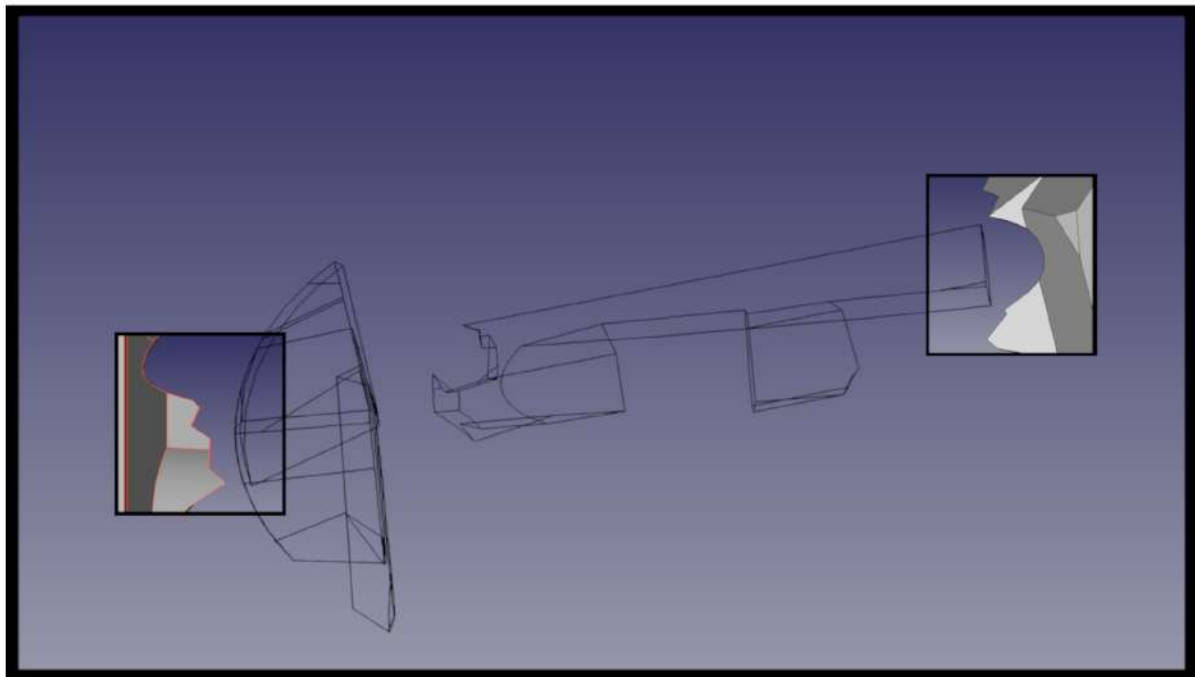

Entre une
interprétation

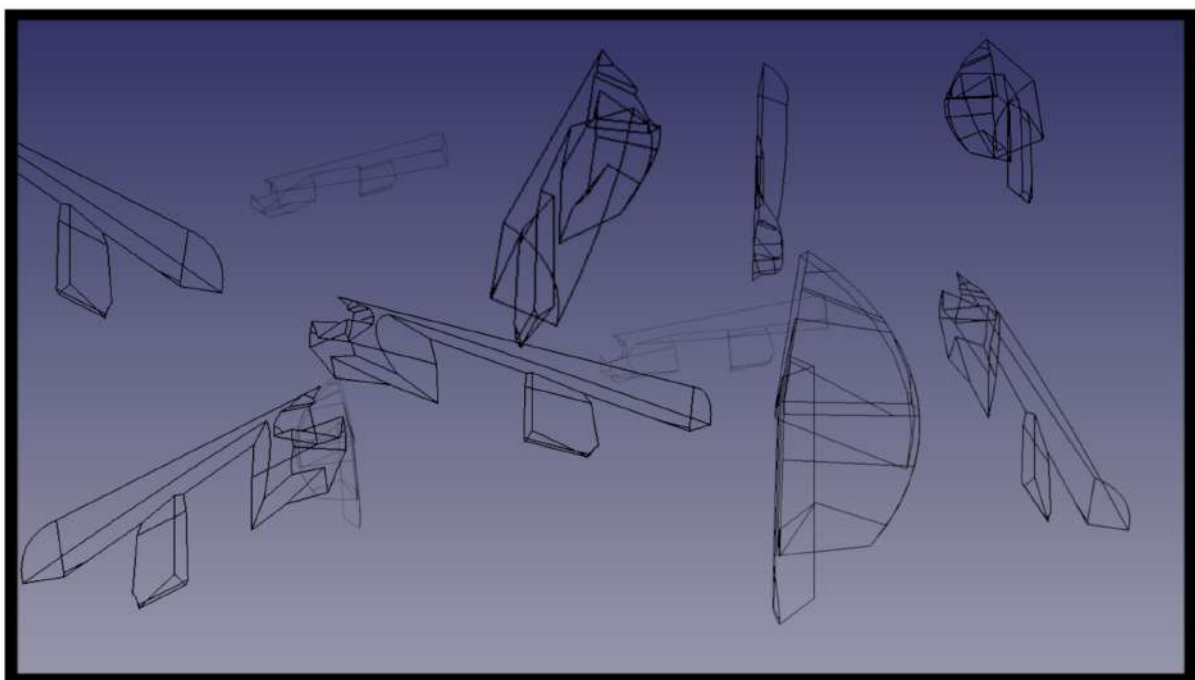

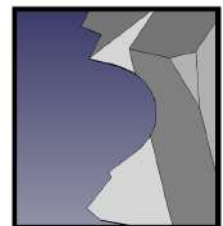

Et l'autre

Les séparent à jamais.

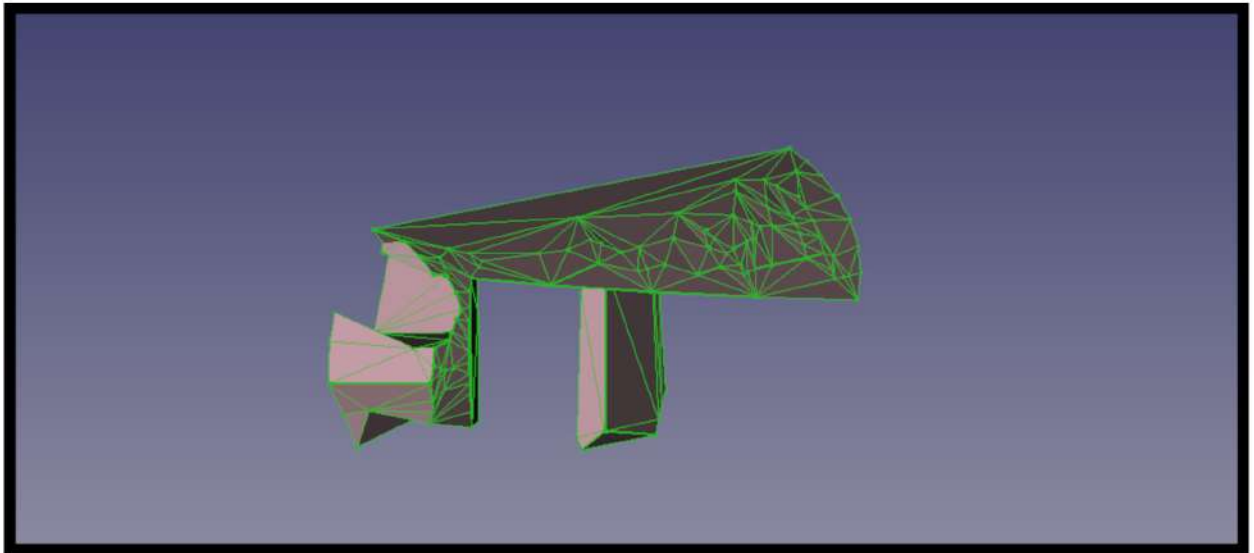

Et créent un univers hors d'eux.
Un espace commun et éternel.

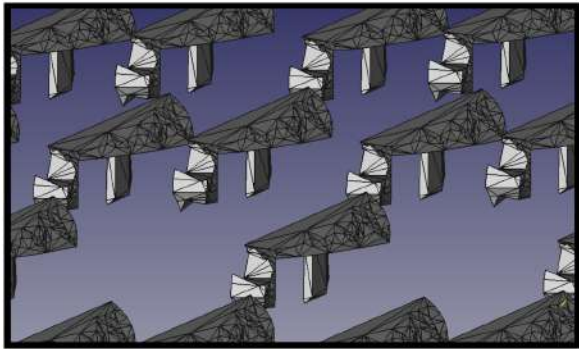

Où vivent leurs Singularités

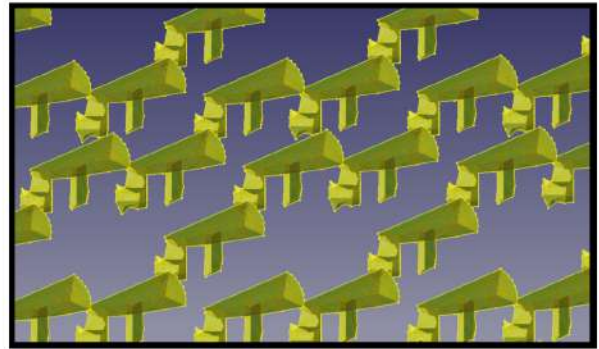

Dans cet espace, elles cherchent une surface qui leur ressemble.

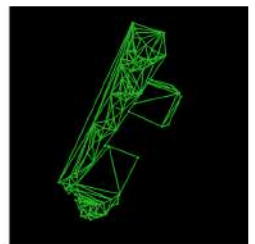

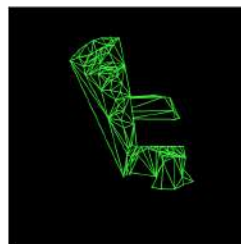

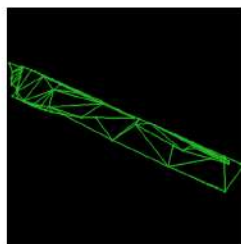

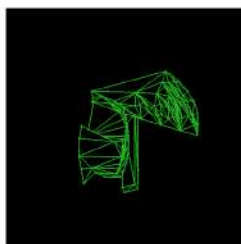

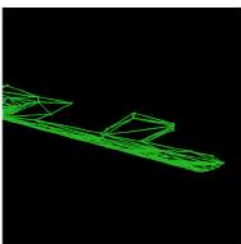

Souvent, elles imposent leur forme .

Quelquefois, elles inspirent leur forme.

Mais celles qui parfois trouvent, observent par le regard des autres.

Et y voient le reflet
